

TankSafe Fuel Anti Syphon Devices

“Is your fuel economy that bad, or is someone helping themselves to your diesel?”

Something to Ponder:

- With the cost of fuel going up and becoming a greater percentage of your overall costs, fuel security has never been so important.
- Fuel Security for many transport and earthworks companies is now at the top of their agenda.
- Fuel economy is only one part of the fuel cost equation; fuel security is another critical element.
- How many companies are operating with your fuel?

The Payback:

TankSafe Cost:	\$290.00 per unit
Average Fuel Tank:	300 Lt.
Diesel Price:	\$1.37 per Lt.
Fill:	\$411.00 per tank
Skim per fill:	20% = \$82.20
ROI:	3 fills
